[Company]

PERSONALITY REPORT

Your Personality Report

The Anchor ⚓

Quiet · Grounded · Logic · Planner

Steady, reliable, always prepared.

WELCOME

Welcome to your report

You answered 24 statements about how you think, feel and live. This report puts your answers together: who you are, what you do best, what to watch for — and a 4-week brain-training plan made for the way your mind works.

Read it at your own pace. Every chapter is short. Share it with someone close to you if you like — many people find it fun to compare types.

Inside your report

1 Your type and how rare it is

2 Your 4 scales

3 Your strengths

4 Your blind spots

5 How you make decisions

6 Relationships: family, friends, children and grandchildren

7 You at your best

8 People, pastimes and questions

9 How your mind works

10 Your brain-training plan: 4 weeks, 10 minutes a day

11 How to start in the [Company] app

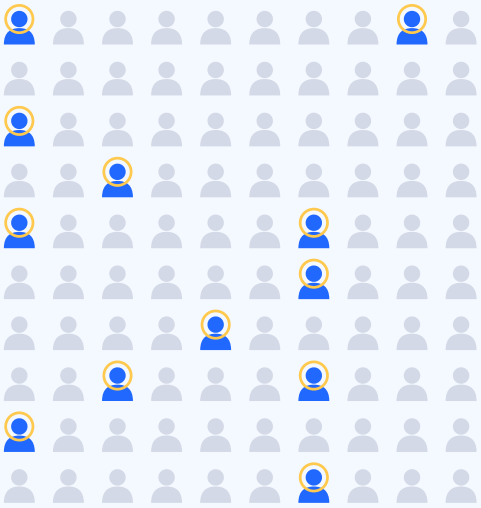

12 About this report

Your answers stay private. This report is for self-discovery and entertainment. It is not a medical or psychological diagnosis.

CHAPTER 1

You are The Anchor ⚓

Steady, reliable, always prepared. You keep your word and do things properly. When others panic, you are the one who stays calm and has a plan.

12 in 100

About 12 in 100 people share your type

Your type is one of 16. Each has its own strengths, blind spots and way of thinking — this report is about yours.

Your four sides

Quiet
Energy

Grounded
Mind

Logic
Decisions

Planner
Lifestyle

You in three words

Reliability · Attention to detail · Strong sense of duty

At your best, you decide carefully, based on facts and what has worked before.

CHAPTER 2

Your 4 scales

Each scale has two sides. Nobody is 100% one side — your answers showed which side you lean toward. It is marked with ✓.

Energy — Where do you get your energy?

Social **✓ Quiet**

You recharge in quiet. A calm morning, a book or one good friend gives you energy back.

Mind — What do you notice first?

Visionary **✓ Grounded**

You trust facts, experience and practical details. You notice what others miss.

Decisions — How do you decide?

Logic ✓ Heart

You decide with your head. You weigh facts and fairness first.

Lifestyle — How do you like to live?

Planner ✓ Flexible

You like a plan, order and finished tasks. You feel best when things are settled.

CHAPTER 3

Your strengths

These are the things people value in you — often more than you realize.

💛 Reliability

People can count on you, every time.

⭐ Attention to detail

You notice the details others miss.

🌿 Strong sense of duty

You do what needs to be done, properly.

Your mind’s natural strengths

Based on how you take in information and how you like to live, your mind is naturally good at:

Memory for details · Focus

Your brain-training plan builds on these strengths and trains the areas that get less practice.

CHAPTER 4

Your blind spots

Every strength has a flip side. Blind spots are not flaws — they are habits worth noticing.

🔍 Can resist new ways of doing things

New ways of doing things can feel like a waste of time.

> Try this: **Try one new way each week — just to compare.**

🌱 Keeps feelings to yourself

You keep feelings to yourself.

> Try this: **Tell one person how you really feel this week.**

What slips first for your type

For The Anchor, what tends to slip first is **flexibility when routines change**. Your brain-training plan in Chapter 10 starts exactly there.

CHAPTER 5

How you make decisions

Logic Planner

You decide with your head and like to settle things early. You weigh the facts, make a plan and stick to it. Watch for: deciding before you have heard everyone out.

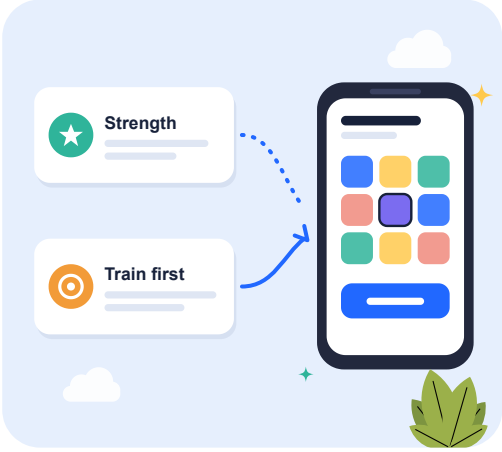

At your best, you decide carefully, based on facts and what has worked before.

Three small habits for better decisions

1. Before you decide, ask one person “What am I missing?”
2. Give big choices one night of sleep, even when the answer seems clear.
3. When a plan has to change, list two new options before you pick one.

Why this matters for your mind

Deciding uses your working memory: holding several options in mind and comparing them. The Logic and Math games in your [Company] plan practice exactly that — in a few relaxed minutes a day.

CHAPTER 6

Relationships and communication

You are calm, honest and say what you mean in few words. People trust your advice. Others may read your quiet as distance, so a small kind word goes a long way.

With your family

You show love through reliability: you fix, help and keep your word. Saying the warm part out loud now and then means a lot to your family.

With friends

You have a few friends you trust completely. You prefer a real conversation to small talk, and people value your honest advice.

With children and grandchildren

Your children and grandchildren learn from you by watching: how to build, fix or think something through. One-on-one time suits you best.

> **You show love through reliability; a kind word shows it too.**

Staying sharp for the people you love

Remembering names, following a fast family conversation, keeping up with your children's and grandchildren's news — these are the everyday moments your brain-training plan is built around.

CHAPTER 7

You at your best

Everyone has good days and hard days. Knowing your pattern helps you get back to your best faster.

☀️

At your best

Steady, reliable and thorough. When you say it will be done, it is done.

🌧️

Under stress

You may get rigid, worry about mistakes and dislike sudden changes.

🌿

What brings you back

Your usual routine, an orderly space and one task completed properly.

How to talk to you

Share this with the people close to you.

1. Give you time to think before you answer.
2. Use facts, not pressure.
3. Respect your quiet time — it is not a sign of distance.

CHAPTER 8

People, pastimes and questions

You may share your type with

George Washington
first U.S. president

Queen Elizabeth II
British monarch for 70 years

Warren Buffett
investor

Based on public descriptions of these people, not official assessments.

Pastimes you may enjoy

- Gardening
- Crafts, woodwork or knitting
- Nature walks and birdwatching
- Photography

Three questions for this week

1. What is one plan I could loosen this week?
2. Whose opinion have I not asked for yet?
3. What did I do well that I did not notice?

CHAPTER 9

How your mind works

Your mind is precise and organized and trusts what has worked before. Fresh puzzles keep it from getting stuck in old tracks.

Your strength is precision. What slips first is flexibility — when routines change, the mind can get stuck in old tracks.

Small slips with names and details are common at any age. Short daily practice keeps your mind in the habit of noticing.

Your mind in four areas

These are the four areas you can train in the [Company] app. Here is the order that fits your type.

🧩 **Logic**	seeing patterns and finding a new order of steps	Week 1 · train first
➗ **Math**	quick mental math and holding several numbers at once	Week 2 · train next
🧠 **Memorization**	holding names, numbers and details in mind	Week 3 · new areas
🎯 **Focus**	staying with one task and noticing what changed	Week 3 · new areas

Personality describes habits of thinking, not your memory or health. Brain games are practice, not treatment. If you are worried about your memory, talk to your doctor.

CHAPTER 10

Your brain-training plan

4 weeks · 10 minutes a day · 2 games a day, about 5 minutes each. Each week focuses on one area of your mind, in the order that fits The Anchor.

WEEK 1 🧩 Logic

Detail-minded people rely on proven routines. Logic puzzles train the mind to find new patterns when routines change.

Water Sort — Pour colored water between glasses until each glass holds one color.

> **Why it's for you:** Calm, step by step and no rush — you plan the order, then watch it work.

Single Line — Fill the whole shape with one continuous line.

> **Why it's for you:** A small puzzle you can finish in seconds — an easy first win of the day.

This week helps you: Solve everyday problems and adjust calmly when plans or routines change.
You'll know it's working when your Logic number on the Progress tab is higher than on day 1, and when a plan changes, you find a plan B in a few minutes, without stress.

WEEK 2 ➗ Math

Planners think best on a set path. Quick mental math trains speed and working memory, so the mind adapts fast when plans change.

Fast Math — Solve quick sums before the time runs out.

> **Why it's for you:** Clear right-or-wrong answers and a score you can beat tomorrow.

Cross Math — Fill in the missing numbers so every line of the crossword adds up.

> **Why it's for you:** A crossword made of numbers — logic and arithmetic together.

This week helps you: Think quickly — check a bill or count change in your head.
You'll know it's working when your Math number on the Progress tab is higher than on day 1, and you check a restaurant bill or the change at the store in your head.

WEEK 3 🧠 Memorization + 🎯 Focus

This week brings in the two areas you haven't trained yet. Play one game from each, every day.

Code — Memorization: Remember a short code and repeat it back.

> **Why it's for you:** Short sequences, like a PIN or a phone number — precise and measurable.

Fruit Sort — Focus: Sort the fruits so each basket holds one kind.

> **Why it's for you:** A tidy, practical task — focus without pressure.

This week helps you: Remember names and details without the awkward pause. Keep track of your keys and glasses, and follow a conversation without losing the thread.

WEEK 4 All four together

New games from all four areas. Play 2 of these each day, changing the mix, and see which area grew the most since day 1.

Single Line — Logic: Fill the whole shape with one continuous line.

Pair Tiles — Memorization: Remember where the pairs of pictures are, then find them on a closed board.

Cross Math — Math: Fill in the missing numbers so every line of the crossword adds up.

Missing items — Focus: Look at a set of items, then spot what has gone missing.

Your 28-day check-in

Tick a circle each day you play. Aim for at least 5 days a week — that is how a habit forms.

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Week 1	○	○	○	○	○	○	○
Week 2	○	○	○	○	○	○	○
Week 3	○	○	○	○	○	○	○
Week 4	○	○	○	○	○	○	○

CHAPTER 11

How to start in the [Company] app

Your plan is ready. Three steps, about two minutes.

1 **Download [Company]**

Get [Company]

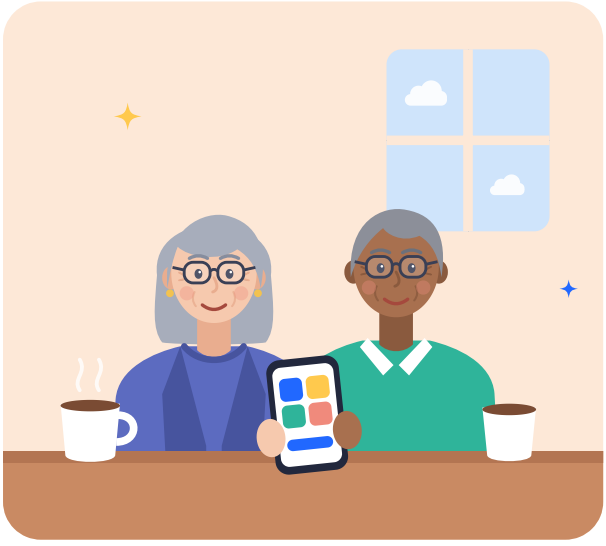

Tap to install [Company] from the App Store or Google Play.

2 **Sign in with your email**

Open the app and tap **“Already purchased on web? Sign in”** on the first screen. Enter the same email you used here and the code we send you. Your subscription is already active.

3 **Open your plan and play**

Go to the **Games** tab and start Week 1: **Water Sort** and **Single Line**. Check your numbers on the **Progress** tab once a week.

Make it a habit

Pick one moment you never skip — your morning coffee, after lunch, before the news. Play then, every day. 10 minutes is enough.

Your plan at a glance: Logic → Math → Memorization + Focus → all four.

CHAPTER 12

About this report

Entertainment, not diagnosis

This personality test is for self-discovery and entertainment. It is not a medical or psychological diagnosis and is not a substitute for professional evaluation.

How we built your type

You rated 24 statements, six for each of four scales: Energy, Mind, Decisions and Lifestyle. Each scale shows which side you lean toward. Your four sides together give one of 16 types. Our scales and type names are our own.

About brain games

[Company] games are everyday mental practice. They are not a medical treatment. If you notice changes in your memory that worry you, please talk to your doctor.
