12 About this report

Your answers stay private. This report is for self-discovery and entertainment. It is not a medical or psychological diagnosis.

CHAPTER 1

You are The Charmer 🌞

Makes life feel like a celebration. You are fun, warm and spontaneous. You make people laugh and turn ordinary days into good memories.

12 in 100

About 12 in 100 people share your type

Your type is one of 16. Each has its own strengths, blind spots and way of thinking — this report is about yours.

Your four sides

Social	Grounded	Heart	Flexible
Energy	Mind	Decisions	Lifestyle

You in three words

Joy and humor · **People skills** · **Living fully**

At your best, you choose joy and people — and you make others happy, too.

CHAPTER 2

Your 4 scales

Each scale has two sides. Nobody is 100% one side — your answers showed which side you lean toward. It is marked with ✓.

Energy — Where do you get your energy?

Social ✓ Quiet

You recharge around people. Conversation, visits and shared plans give you energy.

Mind — What do you notice first?

Visionary **✓ Grounded**

You trust facts, experience and practical details. You notice what others miss.

Decisions — How do you decide?

Logic **✓ Heart**

You decide with your heart. You think first about how a choice affects people.

Lifestyle — How do you like to live?

Planner **✓ Flexible**

You like open options and room to change course. You adapt easily.

CHAPTER 3

Your strengths

These are the things people value in you — often more than you realize.

Joy and humor

You bring laughter wherever you go.

People skills

You connect with anyone.

Living fully

You make the most of every day.

Your mind’s natural strengths

Based on how you take in information and how you like to live, your mind is naturally good at:

Memory for details · Flexibility

Your brain-training plan builds on these strengths and trains the areas that get less practice.

CHAPTER 4

Your blind spots

Every strength has a flip side. Blind spots are not flaws — they are habits worth noticing.

🔍 Puts off serious matters

Serious matters get put off.

> Try this: **Handle one “boring” task first thing in the morning.**

🌱 Gets distracted by the next fun thing

The next fun thing distracts you.

> Try this: **Finish one thing before you say yes to the next.**

What slips first for your type

For The Charmer, what tends to slip first is **plans and names in a busy life**. Your brain-training plan in Chapter 10 starts exactly there.

CHAPTER 5

How you make decisions

Heart Flexible

You follow your values and your gut, and you like room to change your mind. Watch for: letting a decision drift until someone else makes it for you.

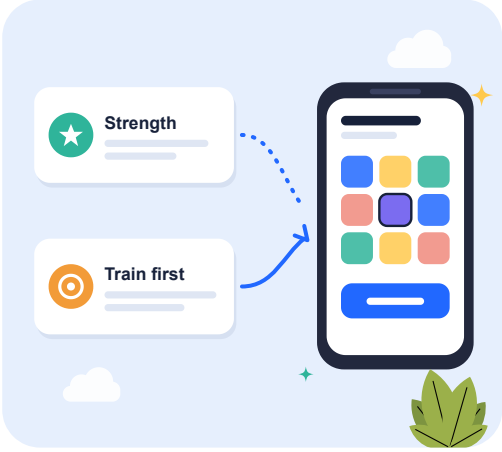

At your best, you choose joy and people — and you make others happy, too.

Three small habits for better decisions

1. Pick a small deadline so the choice stays yours, not someone else's.
2. Talk it over with one trusted person, then decide within a day.
3. Write down what matters most to you — it makes choices faster.

Why this matters for your mind

Deciding uses your working memory: holding several options in mind and comparing them. The Logic and Math games in your [Company] plan practice exactly that — in a few relaxed minutes a day.

CHAPTER 6

Relationships and communication

You are warm and easy to talk to. You make friends quickly and remember what matters to them. Make sure your own needs get heard, too.

With your family

You are the warm center of family life. You remember the birthdays and the little things, and people come to you when they need comfort.

With friends

You make friends easily and keep them for years. You notice when someone is quiet and you reach out first.

With children and grandchildren

Your children and grandchildren feel welcome and safe with you. Your stories and your attention are what they carry with them.

> **You make ordinary days memorable for everyone around you.**

Staying sharp for the people you love

Remembering names, following a fast family conversation, keeping up with your children's and grandchildren's news — these are the everyday moments your brain-training plan is built around.

CHAPTER 7

You at your best

Everyone has good days and hard days. Knowing your pattern helps you get back to your best faster.

At your best

Fun, warm and spontaneous. You make every day feel like an occasion.

Under stress

You may avoid hard conversations, spend all your energy and feel low when alone.

What brings you back

Good company, music and a little treat — then a calm evening.

How to talk to you

Share this with the people close to you.

1. Start with warmth — ask how you are.
2. Say thank you out loud; it means a lot to you.
3. Make plans together and include you.

CHAPTER 8

People, pastimes and questions

You may share your type with

Marilyn Monroe
actress

Elvis Presley
singer, the King of Rock and Roll

Jamie Oliver
chef

Based on public descriptions of these people, not official assessments.

Pastimes you may enjoy

- Volunteering in your community
- Cooking for friends and family
- Group walks or dancing
- Card and board game nights

Three questions for this week

1. What made me feel most like myself this week?
2. What small step would move a dream forward?
3. Who do I want to spend more time with?

CHAPTER 9

How your mind works

Your mind loves people and new experiences. Focus and memory games help it keep up with all the plans and names in your life.

Your strength is people and new experiences. What slips first is keeping up with all the plans and names.

Small slips with names and details are common at any age. Short daily practice keeps your mind in the habit of noticing.

Your mind in four areas

These are the four areas you can train in the [Company] app. Here is the order that fits your type.

🧩 **Logic**	seeing patterns and finding a new order of steps	Week 1 · train first
🎯 **Focus**	staying with one task and noticing what changed	Week 2 · train next
🧠 **Memorization**	holding names, numbers and details in mind	Week 3 · new areas
➗ **Math**	quick mental math and holding several numbers at once	Week 3 · new areas

Personality describes habits of thinking, not your memory or health. Brain games are practice, not treatment. If you are worried about your memory, talk to your doctor.

CHAPTER 10

Your brain-training plan

4 weeks · 10 minutes a day · 2 games a day, about 5 minutes each. Each week focuses on one area of your mind, in the order that fits The Charmer.

WEEK 1 🧩 Logic

Detail-minded people rely on proven routines. Logic puzzles train the mind to find new patterns when routines change.

Single Line — Fill the whole shape with one continuous line.

> **Why it's for you:** Short, visual puzzles that reward a fresh look rather than a fixed method.

Dots — Connect dots of the same color without crossing the lines.

> **Why it's for you:** Quick to start and you can try another path at once — made for a mind that likes to experiment.

This week helps you: Solve everyday problems and adjust calmly when plans or routines change.
You'll know it's working when your Logic number on the Progress tab is higher than on day 1, and when a plan changes, you find a plan B in a few minutes, without stress.

WEEK 2 🎯 Focus

Flexible minds jump between ideas. Attention games help you stay with one task until it is done.

Fruit Sort — Sort the fruits so each basket holds one kind.

> **Why it's for you:** A tidy, practical task — focus without pressure.

Missing items — Look at a set of items, then spot what has gone missing.

> **Why it's for you:** Your eye for detail is a strength here — this keeps it quick.

This week helps you: Keep track of your keys and glasses, and follow a conversation without losing the thread.
You'll know it's working when your Focus number on the Progress tab is higher than on day 1, and you finish a chapter, a recipe or a TV episode without starting over.

WEEK 3 🧠 Memorization + ➗ Math

This week brings in the two areas you haven't trained yet. Play one game from each, every day.

Pair Tiles — Memorization: Remember where the pairs of pictures are, then find them on a closed board.

> **Why it's for you:** Pictures stick best for a mind that thinks in people and moments — like putting a name to a face.

Comparison — Math: Choose which side is bigger, quickly.

> **Why it's for you:** Quick, friendly rounds — trust your first sense of the numbers.

This week helps you: Remember names and details without the awkward pause. Think quickly — check a bill or count change in your head.

WEEK 4 All four together

New games from all four areas. Play 2 of these each day, changing the mix, and see which area grew the most since day 1.

Dots	Logic: Connect dots of the same color without crossing the lines.
Memo	Focus: Memorize the positions of the cards, then find them all.
Fast Math	Math: Solve quick sums before the time runs out.
Missing items	Focus: Look at a set of items, then spot what has gone missing.

Your 28-day check-in

Tick a circle each day you play. Aim for at least 5 days a week — that is how a habit forms.

	Mon	Tue	Wed	Thu	Fri	Sat	Sun
Week 1	○	○	○	○	○	○	○
Week 2	○	○	○	○	○	○	○
Week 3	○	○	○	○	○	○	○
Week 4	○	○	○	○	○	○	○
